

## **SEND Ranges**

West Northamptonshire Launched their SEND Ranges in November 2022. The SEND Ranges is a significant step forward in 'making inclusion happen' throughout all education years for children and young people with special educational needs and disabilities aged between 0-25.

The Ranges are the local approach to providing a graduated response to identify and meet children's needs appropriately. They provide a set standard for each child or young person that can better outline what support is needed based on children's individual needs or behaviours.

The needs are grouped together into 'Ranges' to provide guidance for anyone working with children and young people with SEND. This includes the guiding principles on key areas of education and support such as; assessment and planning, teaching and learning strategies, curriculum and interventions as well as resources needed, creating an approved standard of quality support for behaviours.

A copy of the SEND Ranges can be found here:
